

**Deadline for orders: 31st March 24**

To order please contact us and ask for an excel version of this list. We will generate an order number for you and email the list. Once you send back your list of plants, we will generate an invoice. The invoice will contain a complete breakdown of all costs. We will not add a flat handling fee to every plant and we will not inflate the price of the plants for the show. Orchid Botanics do not cut corners legally or import our plants under assumed names. You will receive copies of phytosanitary certificates with your plants at Malvern. You will have a chance to check your plants at the show and you are entitled to a refund if you are not satisfied.

National Plant Collection Holders get plants at cost price. Please contact us in advance

Species we are bringing with Equaflora	Plant Cost GBP	Estimated price with import	
		costs	Family
Alocasia cuprea big plant	50	63.00	Araceae
Alocasia cuprea medium	30	38.00	Araceae
