

Deadline for pre-orders: 29th February 24

Orchid Botanics

黃龍山蘭花園
OOI LENG SUN ORCHIDS nursery & laboratory

To order please contact us and ask for an excel version of this list. We will generate an order number for you and email the list. Once you send back your list of plants, we will generate an invoice. The invoice will contain a complete breakdown of all costs. We will not add a flat handling fee to every plant and we will not inflate the price of the plants for the show. Orchid Botanics do not cut corners legally or import our orchids as 'hybrids' or non orchid species. You will receive copies of CITES and phytosanitary certificates with your plants at Malvern. You will have a chance to check your plants at the show and you are entitled to a refund if you are not satisfied.

National Plant Collection Holders get plants for their collection at cost price. Please contact us in advance

Some plants from this list will be available at the show

The list of Paraphalaenopsis is not yet ready, we may not be able to offer them pre-order but please let us know if there are any species or hybrids that you are searching for. Other small quantities of Bulbophyllum and Dendrobium may be available at the show which are not on this list.

Species we are making available from Ooi Len Sung	Plant Cost GBP	Max stimated price with import	Quantity	Total Plant cost
Bulbophyllum aeolium	£ 29.00	£ 40.00		£ -
Bulbophyllum auratum	£ 12.50	£ 17.00		£ -

Please note: we are looking to build another two national collections of plants, this time it's *Medinilla* and

epiphytic *Ericaceae* . Please let us know if you have spare plants and you would be interested in swapping for other rare plants.

Total number of Plants	0
------------------------	---

Total plant cost	£ -
Minimum cost you could expect to pay	0
Maximum cost you could expect to pay	0

on costs will be pro rata and proportioned, the on costs will include:

Cites import cost (£74 per genera and £1.50 per species)

Import VAT (20%)

Cargo broker fees (up to £100 per import)

Transportation costs (c£350 per import)

Phytosanitary - (origin country only - price usually \$50 USD and under)

Defra Inspection fees at Heathrow (£183 per import)

Please note that all imports of orchids that have been bought into the country with full legal, conservation and tax compliance since January 2021 can now be checked on a UK Government website. When CITES species (and any other import of plants valued at over £135) are imported legally, the customs charges are handled at the same time as phyto/cites checks and/or managed by a cargo broker. <https://www.uktradeinfo.com/>
